NATURAL HISTORY

The reserve's trails take you past mountain laurel and through hemlock-shaded ravines. In addition to pine and oak, sassafras and tulip poplars can also be found. There are saplings of American chestnuts that have not yet fallen victim to the blight that destroyed this mainstay of the Northeast's forests in the early 20th century. Yokun Ridge is favorable habitat for barred owls, whose characteristic hoot can often be heard and sounds like "Who cooks for you? Who cooks for you-all?" In early spring look for trout lilies blooming.
